Jay,

Can you provide some insight into what you are trying to accomplish with WaterGen and whether or not support is expected from the APTIM contract staff at T&E? Jim mentioned a CRADA you have with WaterGen and analysis of the generated water but that is all I know.

A question from watergen.

Ex. 4 - CBI

We like to know the connector type and how long the cabal should be.

Can you provide a response?

Jay,

I spoke with our electrician (Gary Lubbers). He said that we have sufficient power at the T&E Facility to power the WaterGen unit. **Ex. 4 - CBI**

Hi Jay,

For electrical and other HVAC issues I would refer you to Radha. Gary Lubbers on his staff should be able to handle such questions. In regards to humidity control, Ex. 4 - CBI
